/Sharp**Dudes**/

Mid/Senior .Net Developer

Location: Pittsburgh, PA
Start Date: ASAP
Pay Rate: Based on experience
Term: Full-Time / Part-Time / Contract

Overview

Sharp Dudes, an architectural design and software development company, is seeking several experienced and talented software engineers for direct hire, part-time, and contractual based work. Successful candidates will join a fast growing, Pittsburgh based company on the leading edge of Microsoft Technologies.

Description

The software engineer will be responsible for designing, developing, and maintaining applications for various clients. A solid understanding and a desire to learn new Microsoft .Net technologies is a must. This position will require the engineer to work with and lead others through all stages of the software development lifecycle.

Qualifications

- A strong understanding of Object Oriented concepts
- Proficient in C# with a general understanding of other common .Net Languages
- ASP.Net and Web Application Development
- Database design and programming (Microsoft SQL Server a plus)
- 3+ years of experience in application development
- Understanding of Software Development Lifecycle
- Knowledge of Design Patterns a plus
- Strong problem solving skills
- Experience in SilverLight, WPF, WCF, BizTalk, and SharePoint a plus
- Strong verbal and written communication skills
